V. Plan of Entry ~~(u)~~

A suitable surveillance will be instituted early Friday, 5/27/60, in order to determine the subject's destination for the week end. A survey of the subject's apartment building has revealed considerable traffic between floors of the tenants during the day and early evening hours. However, after 9 p.m. in the evening, the building is relatively quiet. The entry party, equipped with a camera unit and a handy talkie radio could utilize the empty apartment on the second floor until an appropriate time late Friday evening. This would furnish maximum interior security. Outside security would be maintained by a radio car unit parked in the vicinity. ~~(u)~~

The entry party will be under the supervision of [REDACTED] and entry will not be made until the subject and all members of his immediate family are under surveillance and have been taken a considerable distance from his apartment. ~~(u)~~
